SUMMARY

Undergraduate Informatics student at Universitas Gunadarma with experience in software development, data entry, data analysis, artificial intelligence, and cybersecurity. Experienced in developing web applications, REST APIs, database-driven systems, and authentication mechanisms using various programming languages and frameworks.

Experienced in data processing, machine learning, classification, regression, and natural language processing. Conducted research on Transformer-based Indonesian hoax detection using IndoBERT, machine learning classifiers, GPT-3.5 Turbo, and domain credibility analysis.

Currently focusing on Artificial Intelligence, Machine Learning, Data Analytics, Software Engineering, and Cybersecurity.

CORE COMPETENCIES

SOFTWARE DEVELOPMENT

Web Application Development | Full-Stack Development | REST API Development | Backend Development | Frontend Development | Database Management | Authentication & Authorization | Object-Oriented Programming

DATA & ARTIFICIAL INTELLIGENCE

Data Analysis | Data Preprocessing | Machine Learning | Natural Language Processing | Classification | Regression | Transformer Models | Large Language Models (LLMs) | Data Visualization

TECHNOLOGIES

Python | JavaScript | Go | PHP | C# | React.js | Node.js | Express.js | Laravel | CodeIgniter | Unity | PostgreSQL | MySQL | Git

EXPERIENCE

Data Entry Technician — SATPOL PP Jakarta Pusat

Sep 2023 – Aug 2026

- Managed and entered administrative data accurately according to operational requirements.
- Verified and updated records to maintain data accuracy and consistency.
- Organized and maintained data-related documents and administrative records.

- Utilized computer applications and digital tools to support daily data management processes.

Member - Himpunan Mahasiswa Teknik Informatika Gunadarma *Sep 2024 – Sep 2025*

- Participated in organizational programs and student activities within the Informatics Student Association.
- Collaborated with team members in planning and executing student events.
- Supported event coordination and administrative activities.

Computer Numerical Control Operator - PT Argatama Multi Agung *Jun 2021 – Sep 2021*

- Mengoperasikan mesin CNC sesuai prosedur kerja yang ditetapkan.
- Membantu proses produksi dan memastikan pekerjaan sesuai dengan instruksi teknis.
- Melakukan pengecekan hasil pekerjaan dan menjaga ketelitian selama proses produksi.
- Menerapkan prosedur keselamatan dan kedisiplinan kerja di lingkungan industri.

RESEARCH EXPERIENCE

Undergraduate Research - Gunadarma University

Implementation of Transformer-Based Indonesian Hoax News Detection Using IndoBERT, Machine Learning, and Large Language Models (LLM)

- Researching the implementation of Transformer-based models for Indonesian hoax news detection.
- Developing a multi-layer detection framework integrating IndoBERT, machine learning classifiers, GPT-3.5 Turbo, and domain credibility analysis.
- Processing and analyzing 5,040 Indonesian news articles for factual and hoax classification.
- Evaluating SVM, Random Forest, and Naive Bayes models using IndoBERT-based 768-dimensional semantic embeddings, with a linear-kernel SVM achieving 99.80% accuracy and 0.9980 weighted F1-score.

COMMUNITY EXPERIENCE

Secretary - HUT RI Celebration Committee *2025 & 2026*

- Managed administrative tasks and event documentation throughout the committee's activities.
- Assisted in preparing schedules, coordination materials, and event documentation.
- Supported coordination between committee members during event preparation and execution.

Documentation Team - Rekrut 04 *2023 - 2026*

- Handled photo and video documentation for organizational activities and events.
- Organized event documentation for archival and publication purposes.
- Participated in organizational activities, community programs, and tournaments.

- Handled photo and video documentation during community activities.
- Organized and maintained event documentation for archival and publication purposes.
- Supported the documentation needs of the event team throughout the activities.

- Managed administrative activities and documentation for the Entrepreneurship Division.
- Assisted in planning and executing fundraising and business activities.
- Coordinated with division members to support organizational programs and activities.

PROJECTS

AI Content Assistant

- Developed a web-based AI content assistant that provides content recommendations based on current trends and relevance.
- Implemented AI-based analysis to help users identify relevant content ideas for planning and decision-making.

Chicken Detection and Tracking

- Developed a computer vision system for detecting and tracking chickens from video or image input.
- Implemented object detection and tracking techniques to monitor chicken movement and maintain object identities.

Social Media Hoax Detection

- Developed a system for detecting potential hoax news distributed through the social media platform X.
- Applied text processing and machine learning techniques to classify and analyze information shared through social media.

Web-Based Voting System

- Developed a web-based voting platform for managing voting processes and user participation.
- Implemented database management, user authentication, voting functionality, and result processing.

Unity 3D Adventure Game

- Developed a 3D adventure game using Unity with player movement, camera control, animation, and interactive gameplay elements.
- Implemented gameplay mechanics using C# and Unity's built-in physics and animation systems.

Roblox Game

- Developed an interactive game using Roblox Studio and Lua scripting.
- Implemented gameplay mechanics, player interactions, and in-game systems.

EDUCATION

Gunadarma University

Bachelor of Informatics

2023 – Present GPA: 3.78

SMK PGRI 2 Cibinong

Computer and Network Engineering

2020 – 2023

TECHNICAL INTERESTS

Artificial Intelligence | Machine Learning | Data Analytics | Natural Language Processing |
Software Engineering | Web Development | Cybersecurity | Game Development

CERTIFICATIONS & TRAINING

2026 | Dicoding Indonesia - Introduction to Financial Literacy | Dicoding Indonesia -
Belajar Dasar AI

2025 | Database for Beginner

2024 | Fundamental DBMS | Web Programming | Web Programming for Beginner

2023 | Kompetensi Keahlian Teknik Komputer & Jaringan | Data Entry Operator | English
Language Proficiency Test
